

MEMORANDUM

Date: May 05, 2008
To: Water Right File 65-23112
From: medl
Re: permit review

I copied the Application layer POD and POU shapes which VMusic created into the Permit layer. The POU shape is 5.7 acres and is larger than the requested irrigation acreage. I edited the database to 5.0 acres. The POU shape will need to be adjusted to reflect the actual irrigated acreage at licensing.

I checked for overlap in the place of use and found nothing significant.

The applicant has one domestic water use and some stock water use in mind but has not applied for those uses.

When the diversion rate was increased by the applicant on 2/20/2008, the priority date should have been changed. I changed the priority date in the application and permit layers.
