9a. Who owns the property at the point of diversion? If other than applicant, describe the arrangement enabling the applicant to make this filing.

APPLICANT

9b. Who owns the land to be irrigated or place of use? If other than applicant, describe the arrangement enabling the applicant to make this filing.

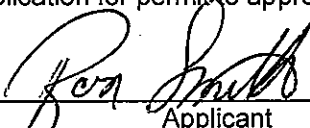

APPLICANT

10. Remarks:

Water from Champion Creek has been used to water this property for many years, but the use was never claimed in the SRBA. We are now applying for a permit to continue the existing use. The water has historically been diverted for gravity irrigation through the ditch shared with Mr. Humphries, but we now wish to pump the water into sprinklers for lawn irrigation. We will either continue to share the Humphries ditch, or will pump directly from Champion Creek. A right of way from the Forest Service will be required in either case.

11. Map of proposed point of diversion and place of use attached? []

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.
