Describe the reason for the proposed changes

Transfer modifies the existing ppu to reflect current and planned future irrigation. The groundwater on this property is either pumped directly into sprinklers, or is mixed with water from Salmon Falls Reservoir (shares in Salmon River Canal Co.) for use in sprinklers and a small amount of gravity irrigation just north of the Sec. 8 well. We understand that enlarging the permissible place of use does not change the existing limits for the use of groundwater on this farm. We are now a limited-liability corporation, so the owner name is being corrected accordingly; the same people still own and operate the farm.
