Describe the reason for the proposed changes

Application splits off all land east of the county road (Sec. 21 & 28) in preparation for a land sale, splitting only those rights that were historically appurtenant to this property. The transfer also moves the well that is on this property one mile north to a more-convenient location. The existing well will be converted to domestic use for the home that is adjacent to it. We understand that the water rights on the remaining land will be conditioned as part of the transfer process to avoid any expansions of the existing use.

A. Describe the expected quantity of the return flows and location of discharge after the proposed change

B. Describe the effects on other water uses resulting from the proposed change
