RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK.
WATER RIGHT NOS. 31-7084, 31-7103, 31-7104, 31-7105, 31-7106, 31-7267A, 31-7569,
31-10964A, 31-11387, 31-11388, AND 31-11389.

Dear Mr. Egbert:

The Department of Water Resources (Department) acknowledges receipt of your application to rent water from the Water Supply Bank (Bank). Please find enclosed a Water Supply Bank Rental Agreement for your review and signature. Upon signature and return of the entire original agreement, the Department will also sign the agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

The total rental fee of \$6,696.20 was calculated based on the current rental rate of \$14.00 per acre-foot times a diversion volume of 478.3 acre-feet. Ten percent (10%) of the total rental fee is retained by the Department for administrative fees in accordance with Water Supply Bank rules, IDAPA 37.02.03.01. The remaining ninety percent (90%) is issued back to the lessor of the above referenced water rights in the form of a warrant. Since you are the lessor and the renter under this agreement, the Department requires that you submit only the portion of the total payment to be retained for administrative fees, in this case **\$669.62**. Enclosed is a receipt for the rental fees received by the Department on December 24, 2007, in conjunction with this rental agreement.

Please note that applications for rental of water must be reviewed in accordance with Section 42-1763, Idaho Code, and the Department's Water Supply Bank Rule 30 (IDAPA 37.02.03.030). This includes consideration of whether there will be injury to other water rights, whether the proposal would constitute an enlargement of the water rights, whether the water will be put to a beneficial use, whether the water supply available from applicable rights in the water supply bank is sufficient for the use intended and whether the proposal is in the local public interest. While a one-year rental usually involves a general review of the water rights and proposed use, rental of water over multiple years may require more comprehensive review, notice to advise anyone who desires to protest the proposed water use, and approval by the Idaho Water Resource Board.

If you have any questions, please contact me at (208) 287-4943.

Sincerely,

Aaron Marshall
Water Allocation Bureau

CONDITIONS OF WATER USE

1. The use of water under this agreement shall be subject to the provisions of Section 42-1766, Idaho Code.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. This rental agreement does not authorize the construction of a well.
6. Use of water under this agreement shall not prejudice the Department in any other action.
7. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
8. Renter agrees to hold the Board, the Director and the State of Idaho harmless from all liability on account of negligent acts of the renter while using water.
9. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
10. Failure of the right holder to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
11. Rental of rights 31-7267A and 31-10964A are limited to a total combined diversion rate of 0.89 cfs, diversion volume of 180.3 acre-feet, and irrigation of 51.5 acres.
12. Use of water under this agreement will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 110.
