Re: Water Right Application #74-15683

Dear Mr. and Mrs. Kolman,

The Idaho Fish and Game Department has reviewed your application for water withdrawal from Wimpy Creek to provide water for an existing private pond adjacent to the stream. Because the withdrawal is non-consumptive the Department believes that your application will not negatively impact fishes or aquatic resources and we are not opposed to the project. However, we request that if your application is approved, you contact the Idaho Anadromous Fish Screen Program (756-6022) so that your system can be properly screened to prevent entrainment of juvenile fish into the pond. Thank you for the opportunity to comment.

Sincerely,

Jim Lukens
Regional Supervisor
