Sharon,

Thanks for the note. I will forward it on to my secretary, Sharla Cox. You may take an additional 30 days to gather the necessary information. I believe that the person working under Mr. Johnston at DEQ is a fellow named Troy Saffle. He may be able to help you get the information more timely. Please continue let myself or Sharla know about your progress so that we do not begin expiration proceeding on your application.

regards,

W. Roger Warner

RE: Application to Appropriate Water 74-15449

Mr. W. Roger Warner,

Short note to make sure I have correct email first.

I need to submit additional information for this water # permit and was not able to make it within 30 days. I have been out of town for several weeks and before I left tried to contact local Fish & Game Tom Curet and Idaho Falls office to Jim Johnston. All have been unavailable each time and I have left messages. I got back home last night and am trying to comply with your letter you sent dated June 13th. I am asking for additional time to complete the required information. I did not realize it would be so hard to

7/28/2006

contact and get replies from the above individuals.
Our local irrigation water master, Rick Sager, has already written a letter for me.
You may contact me by email. sharjak@centurytel.net

Thank You,

Jack & Sharon Jakovac
