Re: Application to Appropriate Water #74-15449

Dear IDWR:

- 05.c. n/a
 - i. n/a
 - ii. n/a
 - iii. n/a

- 05.d.
 - i. Required diversion rate during peak use period is 0.09 cfs for 3 acres irrigated and the average use period is the same. The volume to be diverted per year is 10.5 acre-feet. Period of year water is required is March 15 to November 15. Volume of water that will be consumptively used is 7.5 acre-feet annually.
 - ii. This spring on our property that is used for irrigation is not tributary to any stream in any area.

- 05.e.
 - i. n/a
 - ii. n/a

- 05.f.
 - i. The project is small and will only require ditch cleaning which we will provide our own equipment so cost will only be fuel, probably not more that \$100.00.
 - ii. A ditch is already present and only requires maintenance.
