CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **March 01, 2011**.
2. Subject to all prior water rights.
3. The ponds established by the storage of water under this right shall not exceed a total capacity of 690 af or a total surface area of 43.3 acres.

Permit to Appropriate Water

NO. 63-32229

4. To mitigate for the depletion of water resulting from the use of water under this right and to prevent injury to senior water right holders, the right holder shall divert 144.3 af into the pond(s) pursuant to water right 63-144A and Transfer 73959 each year. If the specified mitigation right, or portion thereof, is sold, transferred, leased, used on another place of use, or is not deliverable due to a shortage of water, a priority call or for any other reason, the right holder shall immediately implement an alternative mitigation plan acceptable to the department, such as rental of water from the Water Supply Bank or the Boise Rental Pool, or acquisition and transfer of private rights, or the right holder shall fill-in the ponds to halt depletion of groundwater.
5. Water stored under this right is subject to fluctuations of the water table caused by changes in the flow of local streams and by diversions under prior ground water rights. This right does not guarantee the maintenance of any particular ground water level.
6. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
7. Place of use is the Coast 2 Coast Subdivision.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 25th day of April, 2008.
