Re: Application for Permit No. 63-32573, M3 Eagle LLC

Dear Protestant(s):

This office acknowledges receipt of all of the protests, referencing you as the contact person, to the issuance of a permit pursuant to the above referenced application. The protests will remain in effect and no further action is necessary from you at this time. In addition, there is no need to reply to this letter. As part of the application process, the following are options available for resolution of contested (protested) applications:

-Direct contact with the applicant to determine what is being proposed in the application and the parties attempt to resolve the protest. Sincere conversation between the parties prior to initiation of formal proceedings can often resolve protest(s).

-Formal Proceedings a Department pre-hearing conference, hearing through the water appropriation statute/rule process. A pre-hearing conference identifies the protest issues and reviews the resolution possibilities with the parties. If the issues can not be resolved, a formal hearing is scheduled.

-Mediation through a certified professional mediator. The advantages can include: reduced costs and time that are associated with formal proceedings, the ability to address non-water concerns, more influence over a final settlement, and fast track processing by the Department for parties reaching a mediated agreement. If you are interested in this option, please contact our office for further details.

Please consider with the applicant the best options for resolution of the protested application. If no option response is received, a pre-hearing protest conference will be held according to the attached notice.

If you would like additional information, or need to further discuss the process, feel free to contact the Western Regional Office, phone 334-2190.

Sincerely,

A handwritten signature in black ink that reads "John Westra".

John Westra
Western Regional Manager
