Re: Application For Permit to Appropriate the Public Waters of the State of Idaho

Dear Ms. Fay:

The Idaho Department of Water Resources (IDWR) is returning your recently submitted application for additional information and clarification.

Item #3 Location of Point of Diversion

Please fill in the spaces provided for the location of the quarter quarter where your well is located.

Item #9 Location of the Place of Use

Please complete the rest of this section by placing a "D" for domestic in the appropriate quarter quarter box, an "5" for the number of acres to be irrigated and a "S" for stockwater as shown on the attached example.

Since the quarter quarter was omitted on the application, please verify that the attached aerial photograph accurately describes your property and if it is correct, also mark the approximate location of the well on the photo. Once the application has been corrected please return it, along with the aerial photograph, to IDWR within the next 30 days so as not to delay the processing of your permit.

If you have any questions, feel free to contact me at this office.

Sincerely,

Keith E. Franklin
Senior Water Resources Agent
