PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 57-11620

Dear Permit Holder:

The department acknowledges receipt of the statement of completion for submitting proof of beneficial use ("proof statement") submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use of the water, and that it meets the permitted beneficial use.

A condition of the permit requires that you provide information to the Department that was not submitted with the proof statement. This condition of the permit states:

7. At the time the right holders submit proof of beneficial use in connection with this permit, the right holders shall also submit documentation showing that they have obtained a right-of-way for their pipeline across public land from the point of diversion to the place of use.

If the information is not received prior to licensing of the water right, the permit could be in jeopardy of voidance.

Be advised that Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office or from the department's website at idwr.idaho.gov.

If you have questions concerning the field examination or the conditions of the permit, please contact the **Western** Regional Office of the department in Boise at (208) 334-2190.

Sincerely,

A handwritten signature in cursive script that reads "Deborah J. Gibson".

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau
