

## MEMORANDUM

**Date:** April 22, 2008  
**To:** Water Right File 57-11694  
**From:** medl  
**Re:** POU

---

I noticed that the place of use in the application layer did not match the place of use photo which accompanied the application. I phoned the applicant and discussed this with them on 4/21/08. They emailed me another aerial photo of the place of use with some areas outlined in orange that they do not intend to irrigate with this permit. The number of irrigated acres (5.5) is the applicants best estimate for the acreage they will irrigate.

According to current Owyhee county taxlot information, the applicant may be irrigating some property that they do not own. I mentioned that issue in the course of POU discussion and they were aware of it.

I created a POU shape for the permit. The shape I created is larger than 5.5 acres but agrees with the larger permissible place of use that the applicants sought to develop with in this appropriation.
