DEPT. OF WATER RESOURCES
SOUTHERN REGION

Re: Vandervegt-Gibson / 36-16468, 36-16470, 36-16472
Project No. 1036-01-2008

Dear Corey:

Enclosed please find an application for transfer for the above-referenced water rights. The purpose of the transfer is to move the two points of diversion (wells) southward to an adjacent 40-acre tract to reflect the actual dairy construction plan. In addition, stockwater and commercial uses are being added to certain 40s, also to reflect the actual plan. A check for \$290 is enclosed to cover the application fee.

The current and proposed points of diversion are both within the same computational cell of the ESPA groundwater model (cell 73,50); therefore no modeling was performed.

Because this transfer is very uncomplicated, I would respectfully request that the Department expedite the process to the greatest extent possible. Construction on the dairy is commencing and water will be needed for the facility within a few months.

Cordially,

Charles G. Brockway, P.E.
