Re: Application for Permit No. 77-14279

Dear Christopher and Dawn Brown:

This office received your Application for Permit seeking a water right. Upon review of your application, there are several areas of the application that need correction or completion. I have enclosed a copy of the original application with the areas that need corrected highlighted in yellow. I have made a few notes referencing how these areas should be corrected in red. I address in further detail specific areas for correction or completion below. Enclosed is a blank Application for Permit for your use. Please complete the application and submit it to the Department for processing.

There are several areas of your application that need correction or completion as follows:

- The legal description given for the point of diversion (item no. 3). The legal description according to the map provided is T19N, R8E, Sec. 21, SW, SW. The government lot information was completed incorrectly. According to Department records, there are no government lots applicable for the proposed point of diversion location of T19N, R8E, Sec. 21 SW, SW.
- The amount of water purposed for irrigation use (item no. 4 first line). It appears, based on information and map submitted, you intend this application to be for domestic use including irrigation of up to ½ acre. The correct way to indicate such for a restricted area is to list "Domestic" with a rate of 0.04 cfs from Jan 1 to Dec 31 as the proposed use. Then note below, in item no. 8 part d, that domestic use is for one home including irrigation of up to ½ acre. If this is not your intention, please contact me directly for advice on how to complete the application otherwise.

- The total quantity to be appropriated (item no. 5). Please correct the total quantity to be appropriated to reflect the amount listed to be listed in item no. 4 as amended.
- Proposed diversion works description (item no. 6). Please clarify how the water will be diverted to the residence and if the water proposed for use will come from a spring or groundwater. If the water is coming from a shallow groundwater source, such as an old mine shaft, please indicate in item no. 2 above if the groundwater is a tributary of another source. If it is not, then it is appropriate to indicate "N/A" in item no. 2.
- The time required for completion of works and application of water (item no. 7). Please list the number of years (either 1, 2, 3, 4 or 5 years) that it will take for you to complete the diversion works and begin to beneficially use the water for domestic use as you propose.
- Description of proposed uses (item 8). Please indicate on line d that domestic use is proposed for 1 home including irrigation of up to ½ acre.
- The place of use description. You have written "1/4" in the SW, SW quarter quarter section space. The Department would interpret this to mean you wish to irrigate ¼ acre in the indicated quarter quarter sections. You did not indicate in item no. 9 where the place of use for domestic purposes is to be. If you do not intend to irrigate more than ½ acre as allowed with the domestic use, please put an "X" in the SW, SW quarter quarter section space of the township, range, and section of 19N, 8E, Sec. 21. You do not need to list 0.5 acres in the total number of acres to be irrigated space as it is understood domestic use includes 0.5 acres in this case.

As I mentioned above, the area for which you seek a water right is a restricted area. The proposed use is within the Wild and Scenic portion of the Salmon River basin. Water right applications in this area are subject to more rigorous review due to the concerns for threatened and endangered fish species' habitat. Single family domestic use including irrigation of up to ½ acre is an approval use in this area without requirements of additional information and more rigorous review. However, irrigation and use beyond the allowable limits described above are subject to additional review and information requirements. This is why it is important for you to contact me regarding your application if you intend to exceed the domestic use limitations.

I have taken the liberty of drafting an amended application based on my interpretation of your proposed domestic use. If you so choose, you may sign and submit this application

Brown

Page 3 of 3

as an amended application rather than completing the blank application provided. However, if you use the drafted application, please correct any items that may be incorrect. Additionally, please further describe the diversion works in the space provided or in the remarks section.

Please submit the completed, amended application to allow for further processing. Please note that if you intend to keep the application in the name of Christopher and Dawn Brown both parties must sign the application and all future documentation related to this water right. If you wish to allow for only one signature in the future, you may change the name connector from "and" to "and/or" or "or". Your response, or a request for more time to make your response, must be received within 30 days from the date of this mailing. The application will be voided without a timely written reply.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'Angela M. Grimm', with a stylized flourish at the end.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of Applicant Christopher & Dawn Brown Phone 208-633-9878
Mailing address P.O. Box 92, Yellow Pine, ID 83677

2. Source of water supply groundwater which is a tributary of NA

3. Location of point of diversion is Township 19 N Range 8 E Sec. 21 in the SW 1/4,

SW 1/4, SW 1/4, Govt. Lot 2, 3, 4 & 5, B.M., Valley County County;

additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 0.04 for irrigation purposes from May 1 to Nov (both dates inclusive) UP TO 1/2 AC
(cfs or acre-feet per annum)
Amount 0.04 for domestic purposes from Jan 1 to Dec 31 (both dates inclusive) IRRIGATION
(cfs or acre-feet per annum) INCLUDED IN
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive) DOMESTIC
(cfs or acre-feet per annum) USE.
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) 0.08 and/or (b) _____
cubic feet per second acre feet per annum

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source existing underground
pipe into old adit/spring. CLARIFY IF SPRING OR GROUNDWATER. FURTHER DESCRIBE
b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total PROPOSED
reservoir capacity _____ acre-feet DIVERSION
WORKS.

Proposed well diameter is ? inches; proposed depth of well is ? feet

d. Is ground water with a temperature of greater than 85°F being sought? NO

e. If well is already drilled, when? C1930; Drilling firm unknown

Well was drilled for (well owner) unknown; Drilling Permit No. N/A

7. Time required for completion of works and application of water to proposed beneficial use is ? years (minimum 1 year) PLEASE INDICATE
THE # OF YEARS
(1, 2, 3, 4 OR 5) FOR
COMPLETION OF
DIVERSION
WORKS.

8. Description of proposed uses (if irrigation only, go to item 9):

a. Hydropower; show total feet of head and proposed capacity in kW. _____
b. Stockwatering; list number and kind of livestock. _____
c. Municipal; show name of municipality. _____
d. Domestic; show number of households. 1 HOME INCLUDING IRRIGATION OF UP TO 1/2 ACRE
e. Other; describe fully. _____

NEED ADDITIONAL
INFO REGARDING
DIAMETER AND
DEPTH.
