Re: Permit to Appropriate Water, #95-9459

Dear Mr. Witherwax:

The Idaho Department of Water Resources is in the process of issuing a license on water right permit #95-9459, formally water right permit #96-8869. During the licensing process it was discovered that the land covered by the water right permit is now in the ownership of Central Pre-Mix Concrete Co.

An assignment of the permit is required, transferring the ownership from Interstate Concrete & Asphalt Inc., to Central Pre-Mix Concrete Co. before a license can be issued. Please complete the enclosed "Assignment of Permit" by having one of the company principals sign the form before a Notary Public and returning it to this office within the next 15 days, along with an assignment fee of \$25.00 made payable to the Idaho Department of Water Resources. When the form is returned, be sure and attach a copy of the latest proof of ownership, such as a warranty deed, real estate contract, etc.

If you should have any questions, don't hesitate to contact me at this office.

Thank you.

Sincerely,

Keith E. Franklin
Senior Water Resources Agent
