Re: Application For Permit to Appropriate the Public Waters of the State of Idaho

Dear Mr. Currie:

The Idaho Department of Water Resources is returning your recently submitted application for the following reason:

The map submitted is not adequate to properly locate your property or the point of diversion. On the USGS map submitted, you show an arrow pointing to a location in Section 36 while the application indicates the point of diversion is located within Section 6. I have enclosed an aerial photograph of the NENE Government Lot 1 within Section 6. Please outline the location of your property and point of diversion on the photograph. Also, please hi-lite your lot on the plat submitted with the application. After you have supplied the requested additional information, please return the application within the next 30 days so as not to delay processing.

If you have any questions, feel free to contact me at this office.

Sincerely,

Keith E. Franklin
Senior Water Resources Agent
