

April 17th, 2008

Pre-Hearing for:

Robert Hallen

Transfer # 73262, 75-2003 (Water Right)
held at US Forest Service Bldg. Salmon ID
at 1:00 p.m.

Present:

Ernie Carlsen - IDWR

Sharla Cox - IDWR

Robert Hallen - Applicant.

Arne ~~Vettrhus~~ - Protestant, by Teleconference call.

STEVE ^{VETRHHUS} Vettrhus - Brother of Protestant - to help Arne to hear.

Review application:

Filed March 2006.

Add a nature of USE. to create a pond.

.4 AF = 4/10

Should be 2 points of diversion, one on creek
and one on the pond.

Acres decreased to 7.8 acres versus 8.0 acres.

Hallen - States the property has been irrigated
and to be careful irrigating and flooding
out the well. They are using a two inch
pipe. The new system 50 g.p.m. - then used
hose w/ sprinkler heads. The pump stays in
one place. There's no earthen back up or anything

very little water in creek. Dug a hole behind the house and siphon it out.

Started using pump 5 yrs ago. (old system)

Two years ago started to use new pump which is stationary.

47 gpm. Myers 220 pump, w/ 80 gallon holding tank.

The irrigation is around the buildings,

Map shows Road goes up little Fourth of July. Ats west of the Bldgs. All irrigation is East of Road. East of Road is Canyon.

→ Vetrhus - Questions - None at this time - ~~Concerns~~.

→ Vetrhus's concerns on application. Why was footests filed -

1- No enough of water to take care of irrigation

Not enough cold water, fish fatality

Irrigation & Recreation are not compatible

Pond violates clean water act.

Should be legal pond off channel - with necessary requirements.

→ Ernie - Pond, water in pond is only water that is getting there.

How far upstream from the pond is Arne's diversion - 1 to 2 miles.

Illegal Pond between Hallon's Pond and Vetrhus^{P.O.D}
Pond belongs to Dale Enrich.

Hallen's pond has been there for 17 yrs.

→ Hallon's - Vetrhus concern - 2 days before Vetrhus's
priority date.

→ Vetrhus - Plastic dam to divert water - measured
below dam - It was - Lowest 100+ gallons
September² 110 gallons - 50% of time not irrigating
He let 110 to 150 gallons down stream.
Measured by - take a section^(10 feet) of creek, width
depth, time - Not exact measurement.
Resembles portable weir.

Enrich
Questioning

→ Arne - how long been on little fourth of July, 1984.
Hallon. purchased property 1990.
How have the water rights been ministered
Hallon - Creek has little water - Maintained
friendship. Watch snorkel take on creek -
add a little water if snorkel gets dry.
Until transfer things have been good.
Hallon thinks Vetrhus has been complaining
extensively.

Vetrhus - says he has told Hallon the pond is illegal.

Vettrhus - doesn't fish in LFJC.

Going to Hearing? As there any resolution?

Mr. Hallen wants his application stand as is!

Vettrhus - Ponds should be constructed off stream and legally before ponds are constructed.

Irrigation and Recreation don't mix.

Ernie does not see resolution.

Hearing should be week of July 14th

wed 16th of ~~July~~ 1:00 - 5:00. "Room 8"
Here

4-17-2008

75-2003.

Robert Hallen. - pro se

50 gal/minute in the creek.

- Purchased property from Naomi Halit -

- 1st pump installed in 2003.

- 2nd pump " " 2006 - 48 gpm.

- pond constructed 17 yrs. ago. - 42 gpm - '1991'

Protestant -

- Not enough water to cover both the agriculture use & recreational use.

- Pond violates clean water act.

- 1 to 1 1/2 miles - diversion is upstream -

Diverted by plastic dam -

low flow 110 gal to 150 gal min act Ue

" 1984 " " 1990 "

- need to schedule field trip prior to mid June.
