Re: Follow-up Items
Thompson Creek Mining Company
Application for Permit 72-7414
MTBR&F File No. 18976.0012

Dear Corey:

I am writing to provide you with responses to your previous requests for additional information on the above-referenced matter.

First, you asked me to confirm whether any actual use of water is proposed to occur in the SWSE of Section 1. I have confirmed with Scott King of SPF Water Engineering that only the storage of water in tanks occurs in that location. In addition, Mr. King confirms that the tank capacity is less than the 24-hour storage amount. Mr. King has agreed to provide you with a letter to this effect. Once you receive that letter, please remove this location from the place of use for this application.

Second, you requested that we provide you with an updated map depicting the points of diversion and places of use associated with the proposed transfer. I have enclosed for your review a map prepared by Mr. King for that purpose.

Third, you asked for documentation that Cyprus Thompson Creek Mining Company is a wholly-owned subsidiary of Thompson Creek Mining Company. I have enclosed for your review and records a signed declaration to that effect by Kevin Loughry, former Senior Vice President, General Counsel, and Secretary, and current President of Thompson Creek Mining Company.

Mr. Corey Skinner

Fourth, you asked for documentation demonstrating that Kent Watson is an officer of Thompson Creek Mining Company. I have enclosed for your review and records a corporate resolution designating Mr. Watson as one of the Company's vice presidents.

I believe this addresses all of your questions regarding this application. If you need any additional information, please do not hesitate to contact me.

Thank you for your attention to this matter.

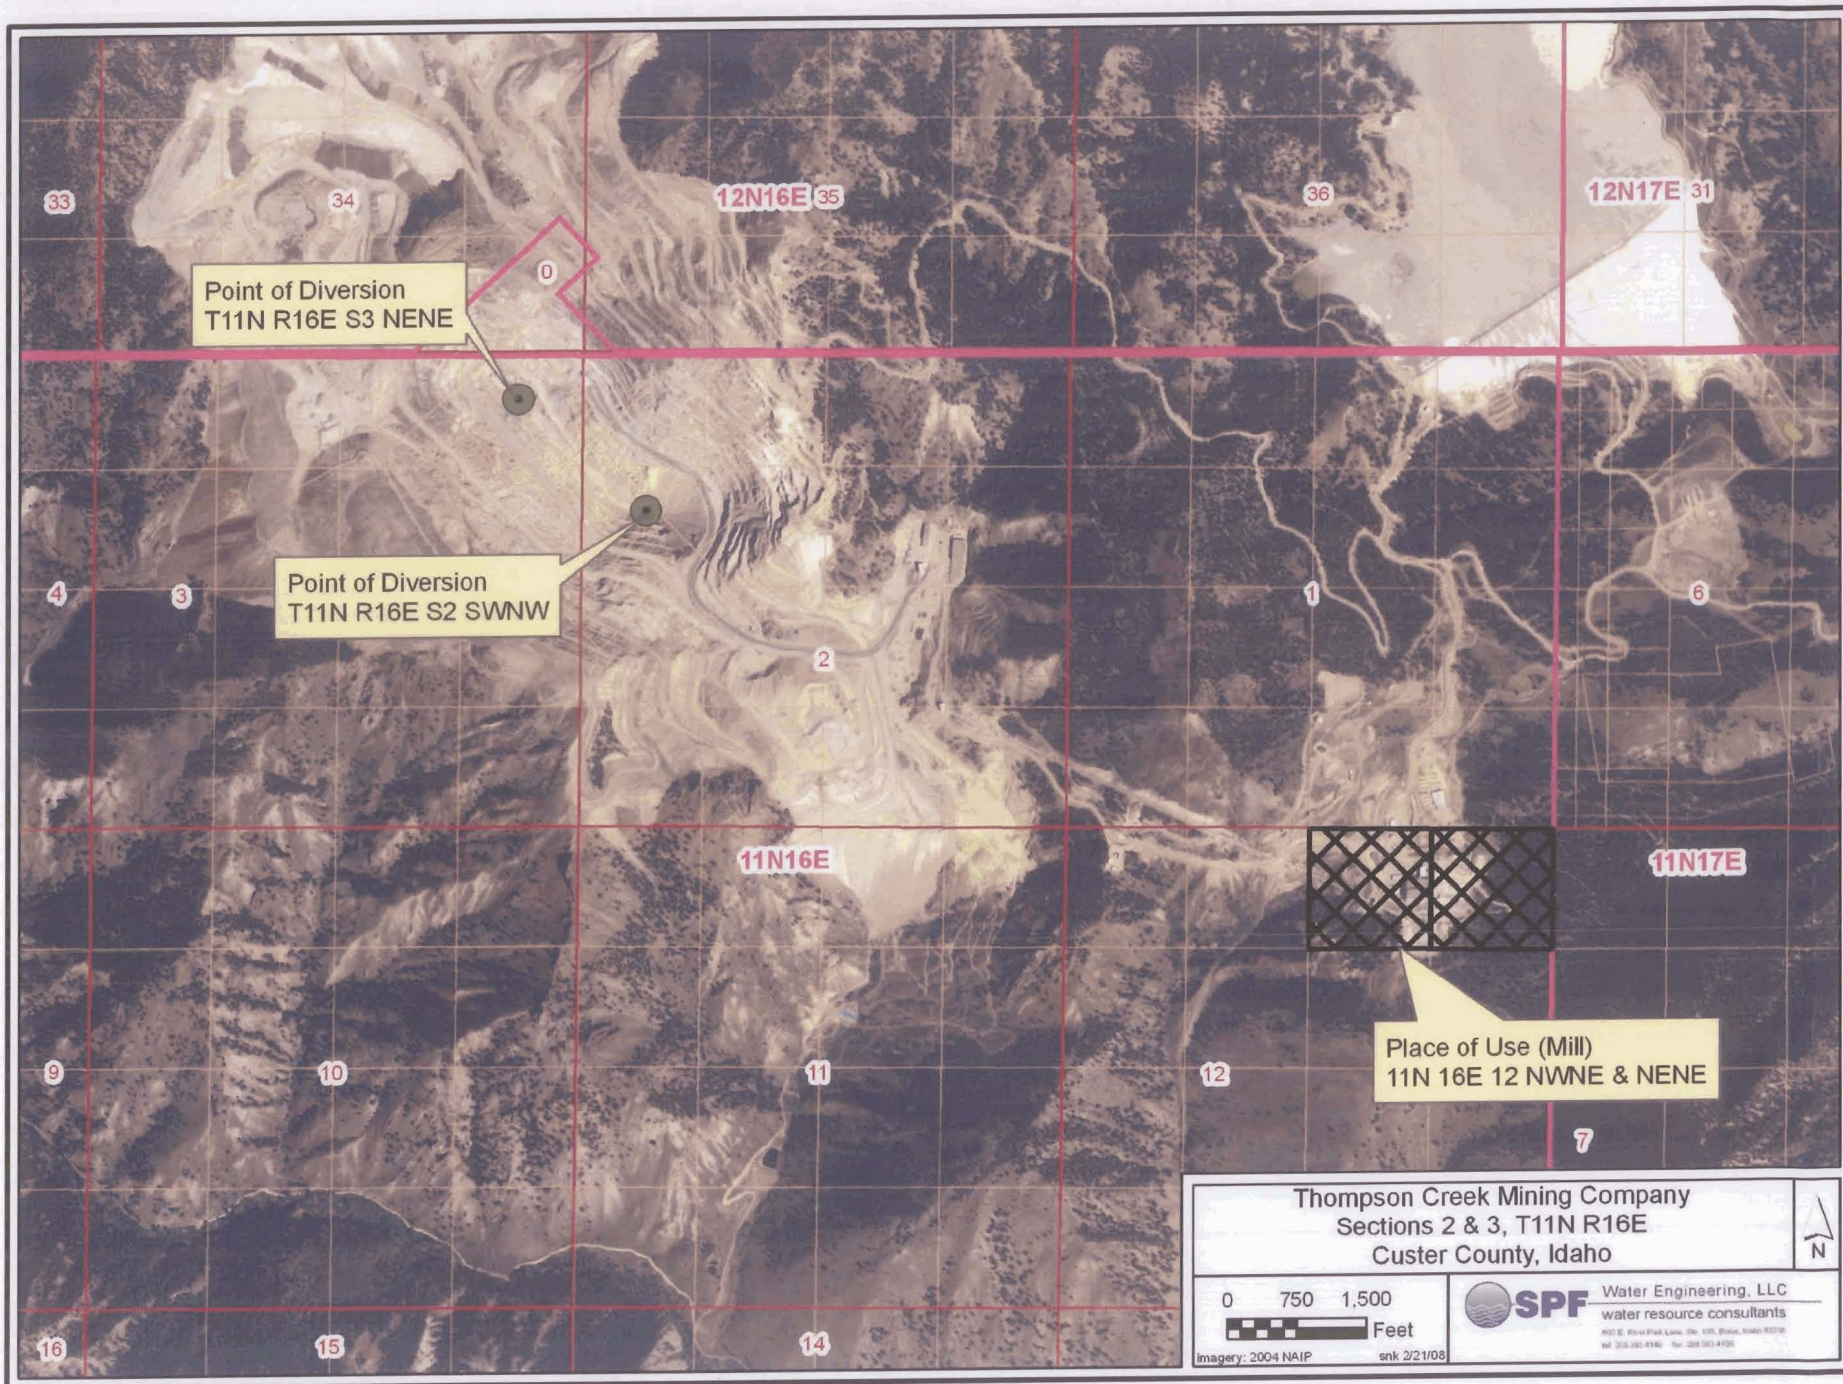

Very truly yours,

A handwritten signature in black ink, appearing to read "Dylan B. Lawrence", with a stylized, wavy line extending from the end.
