Dylan,

As we discussed today during our telephone conversation, the Department is going to treat the Application for Amendment of Permit 72-7573 that you submitted to our office as a licensing amendment to reflect the recommended amendments described in Scott King's beneficial use exam of 72-7573. I am forwarding the Application for Amendment of Permit 72-7573 to Shelley Keen in our State Office so that he can include it with Scott's beneficial use exam of 72-7573. We will proceed with the processing of the transfer of right 72-7414 along with the Amended Application for Permit 72-16728 (for additional diversion and storage of water diverted from the mine pit floor) once we receive the additional comment letters from Custer County, IDEQ, and IDF&G relating to Amended Application for Permit 72-16728.

Let me know if you have any questions, or if I can be of any further assistance,

Corey

Hi Corey,

I just received my copy of a transfer application on 72-7414 and amended permit application on 72-7573 from Dylan Lawrence of Moffatt Thomas. I submitted my report for the beneficial use field exam on 72-7573 directly to Shelley Keen last week. If you need a copy of my field exam, please let me know.

Regards,
Scott
