Aaron-- As I hit the send key, I realized I have a mistake in the application. Under the amount leased to the bank, I indicated .8 cfs and 400 a/f. I had 400 a/f stuck in my mind because of the application to lease. The city needs .8 cfs and 130 a/f immediately. I can discuss with you the remaining amount of 270 a/f at a later date. As indicated, timing is critical. I will fix the application and resend. Thanks Bruce

Aaron-- Attached is an application to lease a portion of a City of Eagle water right to the water bank so we can then lease it from the bank. You can use it as part of your discussions tomorrow. The .8/130 a/f is the amount the city needs immediately. Depending upon other factors there may be a need to lease the remainder of the 400 a/f of water but I can discuss that under less immediate concerns. As I noted, the lease amount is likely to be diverted over some extended period of time but the City has commitments that others are relying upon. Thanks for your help.
Bruce
