Drinking Water Supply Report

RECEIVED
MAR 19 2008
IDWR/North

YEAR: 1987

SYSTEM: Ponderosa Water Association COUNTY: Kootenai
OWNERSHIP: Jon Kosty, President
INFORMATION OBTAINED FROM: Jon Kosty
LOCATION: N¹/2 S. 8, T50N, R. 5 W. BM (south side Spokane River west of Post Falls)
INSPECTOR: John Sutherland DATE OF SURVEY: 4-24-87
POPULATION SERVED: 4 connections - 13 potential

FIELD SURVEY DATA

The source of water for this system is an 8" cased, 98' deep well. The static level of water is 67'. The well is located on a well lot owned by the association and is approximately 50' from the Spokane River. The well is equipped with a 2 Hp submersible pump, liquid level controls and a sanitary seal.

The well discharges through a pitless adapter and pumps up the hill to a 15,000 gallon ground level, partially buried concrete storage reservoir. The discharge piping from the well flows through a Rockwell flow meter and sample tap prior to delivering ~21 GPM to the reservoir. The reservoir is equipped with a float switch to activate the well pump and another for a low level alarm system. The reservoir roof has a wood frame building constructed over the top to house the pressure tanks. The reservoir has an overlapping manhole cover and a screened overflow, vent. Two 5 Hp submersible pumps in 6" well casings and fitted with sanitary well seals are located on the east side of the reservoir. Both discharge through the reservoir house and out to the distribution system. Seven WX-252 Well X-trol tanks ride on the system to prevent excessive cycling of the pump. The two 5Hp pumps are designed to alternate or work together; one pump operates at a 40 psi cut-in pressure and a 60 psi cut-out and the other at a 35-55.

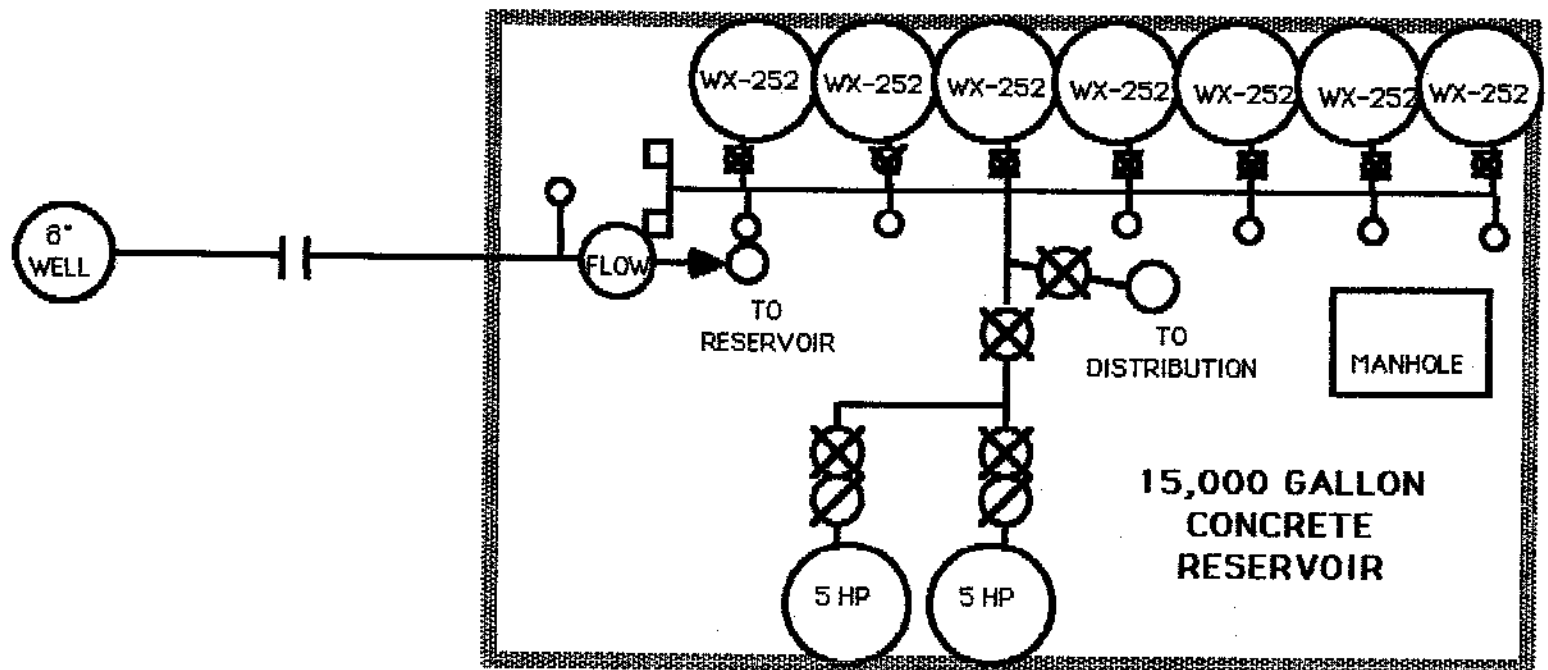

Reportedly, the distribution system is constructed of 2", 3" and 4" PVC 160. It is not looped.

Recent water samples have shown the presence of non-coliform bacteria. This appears to be infiltration from the Spokane River and may require chlorination in the future. Shock chlorination of the system is currently being conducted.
