Re: Transfer of Water Rights - Little Smith Creek(Clearwater River)

Idaho Department of Water Resources
Coeur d'Alene, ID

We enclose a completed and signed change of ownership form for the indicated water right respecting domestic irrigation rights, based on 1980 priority, for use of Little Smith Creek water solely for lawn and garden irrigation purposes.

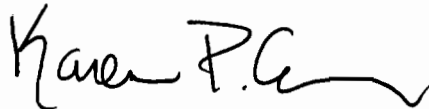

Five(5) children of the former water right owners, Owen and Mary Ann Fiore, acquired in 2003 the subject property(see deeds attached), and therefore are entitled to co-tenancy ownership of the water right.

As the co-owner responsible for managing the subject property, I enclose a water right ownership transfer fee of \$25, and request that your office issue the appropriate change of ownership acknowledgement for the subject water right.

If there are any questions or additional requirements, please call me at the above-indicated telephone number, or write to the indicated address.

Thank you for your attention to this request.

Very truly yours,

Karen P. Ericson
