Re: Application for Transfer / Permits (Six S Ranch LLC)

Dear Corey:

With respect to the application for permit filed by Six S Ranch on April 13, 2007, please note that the place of use for the application with the 13.5 cfs diversion rate has been changed to add a location in the NWSE, Section 34, T 10S, R25E. As depicted on Sheets 7 and 8 of the submitted drawings, the proposed place of use for the wetland created by Dike #6 is in the NWSE, not the SWSE.

Please add the NWSE, Section 34, T10S, R25E as a place of use for water quality improvement and wildlife use on the application for permit filed in the amount of 13.5 cfs. Also, please add that description to the Part 3As of the transfer application as part of the place of use for water quality improvement, water quality improvement storage, wildlife, and wildlife storage uses. Finally, please change the 9/25/06 Ducks Unlimited summary of water requirements sheet to show the PLS location - pond for "Below Old Resvr.- Dike #6" as being in the NWSE of Section 34, T10S, R25E rather than the SWSE of Section 34, T10S, R25E.

Thank you for your assistance in this matter and please call me if you have any questions.

Sincerely,

BARKER ROSHOLT & SIMPSON LLP
