PROOF DUE NOTICE

RE: Permit No. 57-11688

Dear Mr. Albright:

The department acknowledges receipt of the Assignment of Permit ("assignment") changing ownership of the above referenced water right to you. The department has modified its records to reflect the change and with this letter provides a computer-generated report for your information and records.

One condition of approval of the above referenced water right permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 2008. Because the assignment was not processed before this permit's proof due notice was generated and mailed, the Department will allow you to file proof within 60-days from the date of this letter without loss of days of priority.

Enclosed are two forms: a Proof of Beneficial Use ("proof") form and a Request for Extension of Time ("extension") form. An acceptable proof form accompanied by the appropriate license examination fee, or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof, if the water right has been applied to its beneficial use.

If you have not fully completed your project, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been delayed by a federal agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a \$50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this department on or before **May 5, 2008**. If neither is received, the permit will lapse and will no longer be of any force nor effect. A lapse notice will be issued to provide you with additional information.

Mr. Albright
