Director

MICRON TECHNOLOGY INC
8000 SOUTH FEDERAL WAY
BOISE ID 83707

RE: PERMIT NO. 63-31183

Dear Permit Holder:

Enclosed is the approved Request for Extension of Time ("request") that you submitted to the department in connection with the above referenced permit. It extends the time to submit proof of beneficial use to **February 1, 2012**. Please note that the department granted this extension based on evidence of **due diligence**. It is important that you work diligently toward the completion of this project during the construction period allowed.

The Department's review of the permit conditions and Micron's compliance with them thus far, has brought to light an area where improvement is needed.

Permit condition 9 requires an annual analysis of the impact of recharge/recovery to groundwater levels in SE Boise-Micron area. This requirement is not redundant to other analysis and reports submitted by Micron to IDWR. It is needed to relate and summarize otherwise disparate information. No other analysis compares Micron production well withdrawal volumes directly to the ground water levels in SE Boise.

Adequate compliance to the conditions of this permit means that Micron must submit the analysis to the Water Right Permit Section every year. The Department favors a graphical presentation backed by a table or spreadsheet rather than a model simulation, but details of the format can be discussed prior to submitting the analysis. I have attached a copy of the file memo which summarizes the Department's findings.

Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Additionally, these forms can be found on our website at: www.idwr.idaho.gov

If you have any questions regarding this matter, contact me at (208) 287-4946.

Respectfully,

Michele Edl
Associate Engineer
Water Rights Section
