- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: *D* for Domestic) in the corresponding place of use below. See instructions for standard symbols.

Total number of acres to be irrigated 1.5

10. Describe any other water rights used for the same purposes as described above. No other water rights
11. a. Who owns the property at the point of diversion? Applicants
- b. Who owns the land to be irrigated or place of use? Applicants
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____
12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. Applicants propose to place a small pump on the east bank of Palisades Creek to pump water to irrigate up to 1.5 acres of grass and trees. Applicants also propose to divert water from Palisades Creek through a small ditch to the pond and then through a second small outlet channel back to the creek. Applicants hold 27 shares of stock in Palisades Water Users, Inc., under which storage water can be exchanged as necessary for irrigation and for filling the pond. The pond will be lined and will have a surface area of about 21,780 square feet (½ acre) and an average depth of up to about 6 feet for a storage capacity of approximately 3 acre feet. Applicant anticipates that the consumptive use for both irrigation and pond evaporation will be 3.6 AFA, (2.6 AFA for the lawn and 1.0 AFA for the pond) based on values obtained from the ET Idaho website for Swan Valley for open water-shallow systems and Irrigated Turf (copies on this data are enclosed). Applicant will release 3.6 AFA, of storage water, plus any amount needed to fill the pond each year (up to approximately 3.0 AFA) to offset consumptive use of Palisades Creek water.
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½"x11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. (A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.)

BE IT KNOWN that the undersigned hereby makes this application for permit to appropriate the public waters of the State of Idaho as herein set forth.
