Subject: SILVER LEAF

Keith,

Thanks for sending me the draft permit for Silver Leaf. There is one inconsistency when compared with the settlement agreement. Both the Applicant and Protestant agreed to have B(2) conditioned in the permit. I do not believe that this condition would place an additional burden on IDWR. If IDWR adds that condition to the permit Kootenai Environmental Alliance would find the draft permit acceptable.

I also noticed that no date was placed on condition 1.

Thanks for all your help expediting this agreement and permit.
Barry
