

MEMORANDUM

Date: January 23, 2008
To: Transfer 72801
From: narave
Re: transfer evaluation

This transfer proposes to transfer 33 acres within the place of use to reflect the change in irrigation practice from flood to sprinkler irrigation under a pivot. The transfer further proposes to add a point of diversion which is further upstream providing the addition hydraulic head required for conversion from pumps to gravity.

Authority to File:

IDWR records indicate the applicant is the owner of the right to be transferred, and the property to which the Place of Use will be transferred. The applicant is the directors report owner of these water rights and has submitted a change of ownership with a deed to accompany this application.

Water Right Validity:

This water right was recommended in the SRBA. Air photos from 2006 show it to be irrigated. Forfeiture is not an issue.

Injury to Other Water Rights: *PODs*

The transferred water rights are contained within water district 74Z. Watermaster will comment. Transfer will be advertised to determine any protests.

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
