

MEMORANDUM

Date: September 06, 2007
To: Water Right File 15-7285
From: cpadilla
Re: Permit Review

No WD

Application received protests past the protest date of 4/23/07, protestants notified they were to late.

No overlaps

Application was originally for 244.3 acres, after corresponding with applicant about needing 40.05 info since >200 acres would be irrigated, they submitted amendment to cut back the acreage and amount diverted. Since no substantial changes made to application, no re-advertisement necessary and original priority date stands.

Recommend for approval as suggested by the region.
