CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before _____
2. Subject to all prior water rights.
3. This water right is limited to 20 connections plus three fire hydrants.
4. The diversion and use of water described in this right is subject to additional conditions and limitations agreed to by a separate settlement agreement to which the Department of Water Resources is not a party and which is independently enforceable by a court of law.
5. Right holder will report on a yearly basis the annual water withdrawal and distribution information by October 15 for fiscal year ending on October 1 to IDWR.
6. Right holder agrees to locate the primary well servicing water to Johnson Meadows Estates in the northeast corner of this property in lot 11 of the SWNE Section 6 Township 48 North Range 3 West.

*This draft should
stay in the file.*

Permit to Appropriate Water

NO. 95-09362

7. Right holder agrees to finance static line monitoring by an independent engineer for two wells of the existing home of Norbert and Bev Twillmann in order to determine the impact of the newly constructed primary well proposed in the development should the primary newly constructed well servicing this subdivision be located in the initially chosen spot on the east face of the hillside directly above the aquifer servicing the Twillmann wells. Should the primary well servicing water for this subdivision be placed on the northeast corner in lot 11 no monitoring of the Twillmann well would be necessary.
8. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise this _____ day of _____, 20____.

Coeur d'Alene

DAVID R. TUTHILL, JR., Director
