RE: Water Right Transfer Applications for 65-12182 and 65-12183, City of Emmett
Golf Course, HECO No. EM 041507 WR

Dear Mr. Lester,

Enclosed are two water right transfer applications for water right 65-12182 and 65-12183, along with the filing fee of \$250.00 for each application. These transfer applications are being filed because the points of diversions (POD's) for each water right are listed in the wrong quarter-quarter locations. Transfer application for water right 65-12182 seeks to move the POD (well) listed as NW, SE, S.14, 6N, 2W on the water right to the SE, SE, S.14, 6N, 2W. Transfer application for water right 65-12183 would move the POD (well) from NW, SE, S.14, 6N, 2W to the SE, SE, S.14, 6N, 2W. The place of use for both water rights appears to be shown correctly on the SRBA recommendation maps. The City Golf Course is in the process of upgrading their irrigation system and will need to drill a replacement well in the SE, SE, of Section 14.

Please contact me if you have any questions at 208-642-3304. Holladay Engineering is City Engineer for the City of Emmett.

Sincerely,

Holladay Engineering Company

Chris Duncan, P.G.

cc: Bruce Evans, City of Emmett
 John Blom, (City Engineering), Holladay Engineering Co.
