Subject: Application for Transfer of Water Right / Change of Water Right Ownership for Cohen & Mueller

Dear Mr. Lester,

Enclosed on behalf of Michael Cohen and Cynthia Mueller is an application for transfer of a water right. The applicant has an agreement (copy included) to purchase and transfer a 2-acre portion of 63-7194, and proposes a new point of diversion and place of use to provide irrigation water for their property near Middleton, Idaho.

Also enclosed is a change of water right ownership form for 63-31028.

Further, a large scale map is included depicting the place of use for 63-31028 and the proposed place of use for the transfer application. From this map, it appears that Cohen & Mueller are irrigating a small strip in the SWNE $\frac{1}{4}$ $\frac{1}{4}$ of section 35. Mr. Cohen has informed me that per a survey recently completed of this property, all irrigation occurs in the NWSE $\frac{1}{4}$ $\frac{1}{4}$, and that the property line and the $\frac{1}{4}$ $\frac{1}{4}$ section boundary run through the middle of the small shed about 70 feet northeast of the identified point of diversion. There appears to be an approximate 35-foot discrepancy between the 2004 imagery and PLSS GIS information at this location.

A check for \$265 is enclosed to the cover filing fees for the transfer application (\$100) and for the well drilling upgrade fee (\$165). Please contact Terry Scanlan or me with any questions or requests for additional information.

Sincerely,

Scott N. King, P.E.
Senior Project Engineer
