RE: Protest of Application No. 11-7585 (Statutory Claim) Applicant: Fred Hunzeker & Sons

To Whom It May Concern:

PacifiCorp owns water rights in the Bear River, the tributaries to Bear Lake, and Bear Lake decreed in the matter of *Utah Power & Light Company v. The Last Chance Canal Company, Limited et al*, in Equity No. 203, July 14, 1920 and *Utah Power & Light Company v. Richmond Irrigation Company, et al*, February 21, 1922, as well as other rights in the Bear River. Surface tributaries and groundwater infiltrating into the Bear River from the Bear River Basin contribute to water that supplies PacifiCorp's water rights, which are used for hydropower generation and other related purposes. PacifiCorp's water rights are vested and must be preserved free from unmitigated interference.

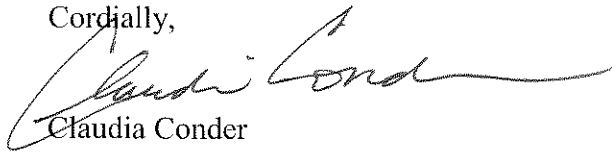

In addition to its water rights in the Bear River, PacifiCorp owns water rights in Bear Lake which it uses to deliver supplemental irrigation water to surface water users downstream with water rights in the Bear River. The recipients of this supplemental irrigation water have delivery contracts with PacifiCorp. Unauthorized diversions of water which result in additional depletion to the Bear River Basin cause less water to flow in Bear River, causing PacifiCorp to deliver them more water from Bear Lake.

PacifiCorp recognizes that this statutory claim is for use of 2.36 cfs since 1842. Since this is a significant amount of water, PacifiCorp is concerned that this diversion and use of water has not been sufficiently measured and use recorded in a manner to prove sufficient history of the use. Since this water flows directly into the Bear Lake outlet canal and then downstream, any increase in use from the historic use could require PacifiCorp to release more water out of Bear Lake than required previously.

PacifiCorp respectfully requests that the claimant install measuring devices and keep accurate records going forward to provide sufficient information for the claim being made. At the time that Idaho Water Resources makes a determination of this claim, a proper adjudication can be made based on the collective data.

Thank you for your consideration in this matter. I can be reached at (801)220-2252.

Cordially,
