Re: Application For Water to appropriate the Public Waters of the State of Idaho:
Water Right Number 98-7868.

After reviewing the water permit and well driller's reports for this application we have discovered that fee for your well needs and upgrade. I have enclosed copies of the driller report that indicate domestic use only in line #4. This means the driller bought one permit for \$ 75.00 in 2005 for domestic use (not irrigation). The one time well upgrade fee is \$125.00 for irrigation.

Please review the outline location on of the land that you are going to use (POU), plus review the location of the point of diversion (POD) on the attached map. Please call me if you need information to complete or add to your application.

Thanks for calling me on 11-28-2007 to review your application and the location of use for this water.

Once the department receives these additional fees, processing of the water application can continue. If you have any questions, please call me at 208-762-2800 or email me at eric.davis@idwr.idaho.gov Please respond with in 30 days.

Sincerely,

Eric Davis
Water Resource Agent
Northern Region
