Re: Application for Transfer of Water Rights
Application for Permit
Coast To Coast Development

Dear Mr. Lester:

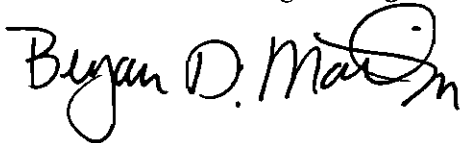

Attached are applications for transfer and appropriation of water rights for the proposed Coast To Coast development. The proposed development is located in the City of Eagle adjacent to the South Channel Boise River on Eagle Island east of Eagle Road.

In summary, the transfer application requests that existing irrigation water rights appurtenant to the properties comprising the project site be used for irrigation at any location within the project site. The application for appropriation seeks authorization for aesthetic storage of shallow groundwater in excavated ponds. Evaporative losses from proposed ponds will be mitigated using existing water rights.

Please advise if there is any additional information you need during your review and processing of the applications.

Sincerely,

Toothman-Orton Engineering Company

Bryan Martin, P.E.
