Subject: Water Right Permit No. 37-22198

RECEIVED

MAR 04 2008

DEPARTMENT OF
WATER RESOURCES

Dear Aaron,

Please find attached the signed subject application with a copy of our check for \$50.00 for the filing fee. These file is being mailed today. While this water right permit No. 37-22198 yields 0.88 CFS – Maximum Diversion Rate and 270.3 AF – maximum Diversion Volume, it is substantially less than what we were told by Dave Coates and Bud Bolan from Hailey Realty at the time of purchase 11-1-2004.

Also as we discussed last, we would like to hold open our options to re-visit the field audit of 2005 in the near future with Jim Stanton in the Twin Falls, ID office.

Additional, we appreciate your written response to our November 21, 2006 letter by our Sebastian Nardecchia concern all water rights, licenses and permits. If you need a copy just let us know.

We certainly appreciate your effort in the matter.

Regards,

Adam Clingerman
