RE: Water Right Permit No. 37-22198

Dear Permit Holder(s):

The Department of Water Resources (Department) is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

☒ **Point(s) of Diversion**

☒ **Place(s) of Use**

☐ **Other**

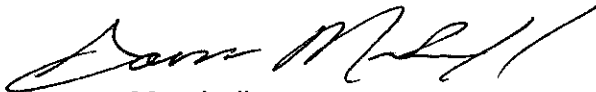

On November 15, 2006, an Assignment of Permit was received by the Department to change the ownership of a portion of water right permit no. 37-7549 to Adam Clingerman, Andrea Houck, Pasquale Miele, and Sebastian Nardecchia. That portion included a total of 290.5 acres in Sec. 10 and 15, T. 1S, R. 16E. A beneficial use field examination was completed by the Department to determine the extent to which the permit was developed. The field examiner found the extent of beneficial use under this portion of the permit to be a total of 118.0 acres all in Sec. 10, T. 1S, R. 16E. The Department is required to license water rights as developed under the terms of the permit. The enclosed Application for Amendment reflects the actual development under the permit.

The Assignment of Permit is being treated as a change in ownership of the water right where the distribution of acreage under this right is based on land ownership. Since the original permit was split into two water rights, the portion assigned to Adam Clingerman, Andrea Houck, Pasquale Miele, and Sebastian Nardecchia is given a new water right number, 37-22198. The water right will be licensed as indicated on the Application for Amendment with this number.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee by October 17, 2007.

If you have any questions, please call me at (208) 287-4943.

Sincerely,
