Re: license review

While reviewing this file for licensing, I found the following worth noting:
Some of the properties have changed ownership since the field exam was done

Neither the POD nor the POU shapes had been created prior to my review. I created them based on the field exam notes and map and a combination of 2004 and 2006 NAIP aerial photography.

POD is an existing domestic well. This water right is to accommodate distribution to an additional 8 residences. In total, 9 residences are now being serviced by this well

The irrigation season of use has not been listed correctly in either the permit or the field exam. The correct season should be 4/1 to 10/31
