Lin:

We did receive the transfer application in early July. It remains on hold with many others due to staff reassignments related to completing the Snake River Basin Adjudication. Processing of this application will not start for some time (1 year?) because we have many transfer applications backlogged dating back to summer 2005.

A copy of the 1st page of the transfer application confirming it was filed plus the consultant's cover memo is attached fyi. The consultant had a little fun with his memo - referring to senior agents at Western Region being "under deep cover" (adjudication work) - rare water right humor!

Western Region will not be able to send anyone along for the site visit -- it's pretty much adjudication 24/7.

Please let me know if I can provide more information in support of your efforts.

Steve:

I have been reviewing the package we received from Ada County and there is a filled-out but unsigned Application for Transfer of Water Right. The applicant is Glen Vander Woude and the proposed water right is 63-7270. Can you tell me if this application was ever actually submitted and if so, what the current status is?

We will be doing the site visit on Monday, November 20th at 3:00 pm. If anyone wants to join the party, they are welcome. Also, if you want additional info, let me know and I will share what I have.

Thanks

Lin Campbell

Hi Helen:

Hard to say if we will have anyone available for site visit if that's planned for this one - but we might. Let me know what type of research etc. you might need and we'll do our best to help out.

A 3-day weekend sounds good right about now - hope you enjoy it!

Steve

Hi, Steve.

I know you are all consumed with adjudication work, but I wanted to let you know that we have received a package for the Glen Vander Woude CAFO site located at 2S 4E 20&29, Ada County. I haven't looked through the materials yet, but I wanted to let you know in case you or your staff have any interest in participating. I may need to know the status of water rights, but I'll look through the package and see what I need from you.

Helen
