Re: Application for Transfer for Water Right Nos. 65-7290 and 65-7573

Dear Roxanne:

Your recent request to expedite the above referenced application to help alleviate water distribution problems for Jughandle Estates Subdivision can be accommodated once the application is amended.

The proposed place of use includes NWSE Section 7 on page 1 of the application but depicts NESE and NWSE on the map, page 7 of the application. One of those items is obviously incorrect.

An amended page 1 or amended page 7 can be submitted. An amended page needs to be endorsed with the applicant's initials and dates to amend the notarized application. That would be by Warren Drake since he signed the application.

This letter is provided via fax with the original to follow in the mail. The application will remain on hold until this matter is cleared up. Please let me know if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Steve Lester".

Steve Lester
Water Rights Supervisor
