Well Confirmation

The purpose of this document is to confirm the date, location and description of a well currently in use and located at 11834 E. Parks Road, Athol, ID.

Property Location:

W2-E2-E2-SW N OF CR 19 53N 02W

This well was ordered by Del and Bonnie Orser (still current residents of this property as of this signed date below) using the services of Carl Bohn, PO Box 121, of Athol, ID 83801 on approximately July 5, 1976. (1978 - Del)

Del Orser assures the accuracy of this document and renders it as follows:

Del.
ground
An approximate 10' x 12' hole was dug by a backhoe in the garden area of the above described property on July 15, 1978. At the bottom of this hole appeared to be a very large hard granite rock. Water immediately gushed into this hole within 2.6 feet of the surface. A 10' 6" long by 36" diameter galvanized pipe was placed vertically in the center of this hole and granite rocks measuring from 3"-10" were placed around it up to ground level, then black plastic was laid on top of this rock fill and regular dirt was used as fill up to ground level.

(2 Ft, 6")
Water has maintained a level of within 2.6 inches of the top summer through winter. This well yields between 6-7 gallons a minute and has quick recovery if the water is pumped out by the submersible 3/4 horse pump currently in use.

Water has been tested on three different occasions and it has checked out to be free of contaminants.
