65-66	NO	NO	YES	NO	NO	NO

Describe the reason for the proposed changes

After a complete review of all headgates within the delivery system and a close look at the lands described by the water rights, it was learned that several 40-acre tracts originally described in the Payette River adjudication had been erroneously removed from the place of use described by the rights in the SRBA. This transfer is being filed for the sole purpose of correctly identifying the boundaries of the place of use served by these rights. The total number of acres authorized by these rights includes the lands added by the transfer.
