PROOF DUE NOTICE

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

RE: PERMIT NO. 87-10017

Dear Permit Holder:

One condition of approval of the above referenced water right permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 01, 2005. (See last page of your approval permit or your last approved extension request.) The Department is required to send you notice 60 days prior to the proof due date. Since the Department did not provide you with the required 60-day notice, this letter provides notice that proof is due within 60 days of the date of this letter or **February 1, 2008**. Enclosed is a form which when accompanied by the license examination fee or a completed field examination report, prepared by a certified water right examiner, may be used to submit the required proof.

If you have not fully completed your project, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. Or, if you have been prevented from proceeding by a federal agency or by litigation that brings title to the water in question, more than one extension of time can be granted with documentation providing evidence of the delay filed with the extension request. An extension request must be accompanied by a \$50.00 filing fee and signed by the appropriate authorized permit holder(s) or an authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this department on or before the proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah Gibson, Admin. Assistant
Water Allocation Bureau
