RE: PERMIT NO. 37-8894

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time submitted in connection with the above referenced permit which extends the proof due date to **July 19, 2008**. Please note that the department granted this extension based on evidence of **federal agency delay**. Note that the department granted this extension based on the actual time of delay by a federal agency during the last development period, according to Section 42-204(1), Idaho Code.

The department was unable to grant an additional extension based on good cause under I.C. Sec. 42-204(5). Permits issued with less than a five (5) years development period, may be granted multiple extensions based on good cause up to a maximum of five (5) years. However, after the five years is reached only one additional extension can be granted, which could be up to another five years as determined necessary by the department. This permit received an initial 3 years of development as requested on the application. An extension of time was granted for five years in 2003. That extension granted development beyond the first five year period and must be considered the last extension for this permit based on good cause.

It is important that you work diligently toward the completion of this project during the construction period allowed, since the department will not grant any additional extension requests based on good cause, according to Section 42-204(5), Idaho Code.

Section 42-248, Idaho Code requires you or the owner of this water right to maintain current address records on file with the department. Please contact any office of the department for the proper form to file an address change form. Additional forms and information may be found on our website at: <http://www.idwr.idaho.gov>
