Department of Water Resources  
Eastern Region

To. Dept of Water Resources

This well has been their  
for at least 60-80 years.

It served 4-5 houses, yards  
and gardens.

Watered over a 1000 head of  
sheep, also cattle. They filled  
water tanks and spray fields

It was owned by the  
Nielsen Brothers.

I know this information  
because I lived and owned  
the 80 acres just south  
of the well.
