In regards to: Permit 85-15356

Idaho Department of Water Resources
Water Allocations Bureau
Attn: Deborah Gibson
PO Box 83720
Boise, ID 83720-0098

Dear Ms. Gibson:

Thank you for your help in reinstating our permit for groundwater use of permit number 85-15356. I am re submitting the application for this permit. We initially ran LOID Well # 4 before we experienced a malfunction with the pump. We had to pull the pump and motor and rehabilitate the equipment and have placed it back in service. Well # 4 is now the primary producer of domestic water for residents of the Lewiston orchards servicing around 18,000 people.

The LOID filed for the proof of the water claim late for two reasons, the primary being the malfunction of the pump and motor and the rehabilitation before being put back into service and the second reasons that the LOID failed to submit the correct paperwork and documentation. I appreciate working with the IWDR to have this permit reinstated and appreciate the efforts you have given in order to help us.

Sincerely,

A handwritten signature in black ink that reads "Barney Metz". The signature is written in a cursive style with a large, stylized "B" and "M".
