Subject

Macfarland Transfer 72000

Alan,

I've removed the BLM ground from the transfer approval document. The small acreages were added due to a clerical error. I used ArcView to generate the shape and didn't remove the portions of the "perfect" circle associated with the pivot from BLM ground. I would greatly appreciate if the BLM could withdraw there protest pursuant to this change. If you need anything else from me please let me know.
