Subject: RE: Application for Permit #65-22942 Basso

Mr. Basso:

Before the amended application can be further processed the following must happen in sequence:

1. The draft amended changes must be acceptable to the protestant.
Mr. Belau must formally withdraw his protest in writing.
2. The amended changes must be made to the original application form and submitted to our office. A \$50 fee is required.
3. The application will need to be re-advertised for protests. Amended applications of this magnitude must be re-advertised under state water law.
4. Our office will continue to process the application if no protests are received.

If you wish me to send the draft letter I composed to Mr. Belau, let me know.

Regards
John Westra

Thank you for your help in resolving the permit issues.

Attached you will find the proposed changes to the permit.

<<Water application proposed change 11-14-2005 A.doc>>

We hope that you find the proposed changes satisfactory.

We will be forwarding the attachment in the near future to Roger Belau.

What should be the next step in approval of the permit. We feel that re-advertising the permit would not be necessary because we are significantly reducing the amount of water that we will be diverting over a yearly time period.

Please respond to our home Email Address.
