Re: Application For Permit to Appropriate the Public Waters of the State of Idaho

Dear Mr. and Mrs. Johnson:

The Department of Water Resources (IDWR) is returning your recently submitted application for additional information and corrections.

Item #4 on the application is incomplete as to the purpose and the dates of use. Also, the application indicates an instantaneous diversion of 0.08 cfs (36 gallons per minute) from a well that produces only 8 gallons per minute (0.02 cfs) according to the well drilling report.

I have enclosed an example application form, which shows all of the corrections for your consideration, along with a new application form if needed. Please make the necessary corrections to the returned application or complete the new form and resubmit as soon as possible, so as not to delay processing. If you have any questions, don't hesitate to contact me at this office.

Sincerely,

Keith E. Franklin
Senior Water Resources Agent

Enclosure.
